

A top-down view of several children sitting around a large table, drawing various school-related items on a large white sheet of paper. The central focus is a large drawing of a school building with a clock tower. Surrounding it are numerous smaller drawings of school supplies: a microscope, a globe, a compass, a ruler, a pencil sharpener, a backpack, a calculator, a glue stick, a pair of scissors, a kite, a bell, a stack of books, a girl, and a boy. Some children are actively drawing, while others are looking at their work. The drawings are colorful and detailed.
